LANGUAGES

- **English:** full professional proficiency
- **Dutch:** native
- **German:** limited working proficiency
- **Spanish:** elementary proficiency

PROFESSIONAL SKILLS

- **Data analysis:** Excel, SQL, Python
- **Software development:** Java, Unity, C#, Flutter/Dart, Android Studio, Arduino
- **Web development:** HTML, CSS, Javascript, Angular, MySQL
- **Graphic design:** Adobe Suite Photoshop
- **Video editing:** AfterEffects, iMovie
- **UX/UI Design:** Figma, Balsamic
- **IT support:** Microsoft 365

KEY COMPETENCIES

- User-Centered design
- Rapid prototyping and wireframing
- Creative Thinking
- Interaction Design
- Usability testing
- Communication and collaboration
- Problem-solving
- Adaptability and continuous learning

INTERESTS

- Sports:** Hiking, fitness, certified Yoga Instructor, snowboarding, motorsport
- Cultures and volunteering:** 5 years living abroad for study/work and educational/cultural volunteering
- Tech:** Smart technology, Internet of Things, VR/AR

PROFESSIONAL STATEMENT

Just finished a double degree master's in Human-Computer Interaction Design (HCID) through EIT Digital, with the first year at UPM in Madrid and the second at Aalto University in Helsinki. Driven by a passion for emerging technologies and human-technology interactions, I am especially fascinated by the smart world through sensors, actuators and virtual reality. My goal is connecting the right elements and people together in the fields of health, sports, and lifestyle innovation. Alongside my professional journey, I am an avid sports enthusiast, certified yoga instructor, and an experienced tour guide with a love for travel and cultural exploration.

EDUCATION

Master Human Computer Interaction Design - UPM/Aalto (2024 - 2026)

Master of Digital Innovation - Universidad Politécnica de Madrid, Spain - honours
Master of Science - Cross-device interaction - Aalto University, Finland - honours

Bachelor Creative Technology - University of Twente (2019 - 2022)

Bachelor of Science - Graduated with honours

Erasmus Minor Exchange - Umeå University Sweden (2021- 2022)

Cognitive and Health psychology, Interaction Technology

International Exchange - Hants East Rural Highschool (2018- 2019)

Enhancing English language proficiency and soft skills during an educational exchange year in **Canada (grade 12)**

High school - Onze Lieve Vrouwe Lyceum (2012- 2018)

Dutch **double degree** a-levels in direction Nature & science and nature & health

WORK EXPERIENCE

User experience design - DAVID Systems (feb 2026 - jul 2026)

Improving the user experience of applications used in radio production and contributing to the design system, alongside writing my thesis on 'Designing Adaptive User Interfaces for Professional Radio Broadcasting - A Human-Centered Approach to Personalization in Layout Systems'.

User Interface / User experience design - XABLU (oct 2022 - oct 2023)

UX consultancy. Improved design and user flow of mobile and web applications. Created interactive prototypes, conducted contextual inquiries, and ran concept evaluations.

Holiday tour guide - Sunweb, NoSun, Beyond Borders (oct 2022 - current)

Working in multicultural environments for Nosun (tours in Europe) and Beyond Borders (worldwide). Resort representative during the wintersport season of 2022-2023 for Sunweb in Mayrhofen (Austria) and Val Thorens (France).

Student Assistant - University of Twente (oct 2019 - oct 2022)

Assisting professors in the bachelor Creative Technology at the university of twente. Teaching, supervision, grading and content creation for the courses: programming, physical computing, sounds & circuits, introduction to physical systems, algorithms, and Data Driven Applications. Additionally supervising in the student-for-a-day program.
